

SortableObject

```
classDiagram
    SortableObject <|-- Event
    Event <|-- CheckoutEvent
```

A UML class diagram illustrating inheritance. At the top is the class 'SortableObject'. Below it is the class 'Event', with a vertical arrow pointing from 'Event' to 'SortableObject', indicating that 'Event' inherits from 'SortableObject'. At the bottom is the class 'CheckoutEvent', with a vertical arrow pointing from 'CheckoutEvent' to 'Event', indicating that 'CheckoutEvent' inherits from 'Event'. All class names are enclosed in rectangular boxes with thick black borders.

Event

CheckoutEvent
