

SortableObject

```
classDiagram
    SortableObject <|-- Person
    Person <|-- Customer
```

A UML class diagram illustrating inheritance. At the top is the class 'SortableObject'. Below it is the class 'Person', with an upward-pointing arrow from 'Person' to 'SortableObject', indicating that 'Person' inherits from 'SortableObject'. Below 'Person' is the class 'Customer', with an upward-pointing arrow from 'Customer' to 'Person', indicating that 'Customer' inherits from 'Person'.

Person

Customer
